EDUCATION

Vellore Institute Of Technology **September 2023 - Present**
Bachelor of Technology in Computer Science and Engineering - **8.34/10** Madhya Pradesh, India

EXPERIENCE

Data Science & Machine Learning Intern | INFOTACT SOLUTIONS (Remote) **June 2025 – August 2025**

- Analyzed and preprocessed datasets using Python to identify patterns and generate actionable business insights.
- Built and evaluated machine learning models to solve real-world business problems and support data-driven decision-making.
- Performed data cleaning, feature engineering, and exploratory data analysis (EDA) to improve model performance.
- Collaborated on end-to-end project workflows, from data preparation to model evaluation and result interpretation.
- Presented findings through clear visualizations and reports, enabling stakeholders to understand key insights and recommendations.

PROJECTS

Music Detector: Real-Time Song Identification

- Developed an AI-powered application that identifies songs in real time from surrounding audio, enabling users to instantly discover music heard in public places, videos, or events.
- Designed the solution with a user-centric approach to improve convenience and reduce the time required to manually search for songs.
- Applied machine learning techniques for audio recognition and focused on delivering an intuitive user experience.

INNOVEST: AI-Powered Micro-Investment Suggestions

- Built an AI-driven platform that provides personalized investment recommendations and suggests suitable government-backed schemes based on users' age, budget, and financial preferences.
- Focused on simplifying investment decisions for first-time investors by delivering personalized, data-driven recommendations.
- Leveraged machine learning techniques to analyze user inputs and generate relevant financial suggestions, prioritizing usability and informed decision-making.

TECHNICAL SKILLS

- **Programming Languages:** C, C++, Python, Java, TypeScript, HTML5, CSS3, SQL, MySQL
- **Technologies:** Artificial Intelligence, ML, Data Science, Git/GitHub, Linux, Cloud Computing, Large Language Models (LLM), Generative AI, Regression, classification, clustering, NLP, DL
- **AI/ML Tools:** Docker, Kubernetes, TensorFlow, PyTorch, Google Cloud AI, AWS SageMaker, IBM Watson, Kubeflow, Google Colab, Ansible, Jenkins, CI/CD Pipeline for AI/ML workflows.
- **General Tools:** MS Excel, PowerPoint, Word, Teams, VS Code, Figma, Jira, Notion, Postman, Power BI.
- **Languages:** Hindi (native), English (fluent)

CERTIFICATIONS

- Google UX Design Professional Certificate – Developed skills in user research, wireframing, prototyping, usability testing, and user-centered design.
- Google Advanced Data Analytics Professional Certificate – Gained expertise in Python, SQL, statistics, data visualization, and machine learning for data-driven decision-making.
- Applied Machine Learning in Python – University of Michigan (Coursera)
- Frontend Development with React – Packt (Coursera)
- Problem Solving (Intermediate) Certificate – HackerRank

SOFT SKILLS

- Analytical Thinking
- Problem Solving
- Communication
- User-Centric Mindset
- Leadership
